SDE Off-campus Placement Calendar – Freshers

5-6 years ago, if someone has to land a job in Google, the pre-requisite was to first get into an IIT. Not because of the quality of education, but also because of no possibility of getting an interview call otherwise.

Off-campus job means a job secured by giving interviews directly in organisation without any involvement from your College's training and placement cell. Off-campus placements are a blessing for Tier-3 or Tier-2 college students. It is the only hope for these excellent students to work for good companies with decent to high paying salaries.

Before we jump into the calendar, don't forget to check out the below links for your interview preparation as well:

- Striver's SDE Sheet
- SDE Core Sheet
- Resume Building Approach
- Preparation Roadmap

Special thanks to Chirag Kakkar, Utkarsh Pandey, and other 2022 batch students of JGEC for helping me to collect all the information.

Company		Interview

Infosys	3.6 – 9.5 LPA [3 brackets are there]	Varies for all different roles.	or fourth year] [Hackwithinfy and infiTQ being the major exams]
